Note:

As a general rule the actual age of a Youth Competitor on 1st weekend of September (beginning of the trials season) will identify the grade for the remainder of that season.

Important - A Youth competitor cannot compete on a 1 day licence.

Youth C can compete on machines up to a maximum engine size of 80cc.

Youth D can compete on machines up to a maximum 50cc Monoshock or 80cc Twinshock including electric bikes.

To encourage new youth competitors to the sport, a new competitor may compete in Youth D/Youth C for 3 events and will then be regraded in accordance with his/her progress for the remainder of the season. (These riders will compete on a no awards/results/championship basis).

To continue from the 2009 season all Youth C&D competitors must be accompanied by a responsible adult or guardian for the full duration of the event.

If any parent/ guardian wish's their son/daughter to remain in Youth C in place of moving to Youth B, they should contact Ian Callaghan or Rudy DeVreede.

For any further information regarding Youth C & D trials please don't hesitate to contact Youth Trials co-ordinators:
