NOTES FOR GUIDANCE OF THE APPLICANT

Licences will be issued as follows:

- Type A Entitles the holder to take part in a road Race event provided the holder has qualified to hold such a licence- the minimum age to be 18. A "Type A" licence also enables the holder to take part in those events for which a "Type B" or "Type C" licence is required. Applicants whose previous licence was "Type A" must return such licence with this application
- Type B Entitles the holder to take part in a Short Circuit event- Drag Racing, Sprint or Hill Climb - the minimum age to be 15 years for events up to 200cc and 17 for events over 200cc. A "Type B" licence is available to 13 year olds restricted to 125cc until the age of 17. A "Type B" licence also enables the holder to take part in those events for which a "Type C" licence is required but NOT in those events for which a type "A" licence is required. A holder of a "Type B" licence wishing to upgrade to a "Type A" licence must have a Record Card issued with the licence completed by the timekeepers at the conclusion of each race meeting and the onus for having it completed rests entirely with the holder
- Type C Entitles the holder to take part in Enduro, Grasstrack, Moto Cross or Trials events - the minimum age to be 15
- Type E Entitles the holder to enter Licensed Drivers in events. A Medical Certificate is NOT required for this type of licence
- Type S Entitles the holder to take part in a Road Race- Support Class only
- Type T Entitles the holder to take part in Trials only - minimum age 15 years. No medical cert required

Note: *The centre reserves the right to restrict any licence to such events or type of events, as it considers necessary in which case an endorsement to this effect will be clearly written on the face of the licence by the Licence Registrar*

MEDICAL CERTIFICATE

The Applicant's doctor should PREFERABLY complete this section of the form and the Applicant is responsible for paying any fee charged in respect of the examination. Notwithstanding the completion of the Medical Certificate overleaf, the Centre may require, applicant to undergo a further medical examination with a doctor nominated by the centre, before issuing a licence.

NOTES FOR GUIDANCE OF EXAMINING DOCTOR

Motorcycle racing is a dangerous sport and therefore competitors must attain an extremely high level of medical fitness.

If you have any doubt as to the fitness of any applicant please send the application form to the Licence Registrar or MCI secretary outlining your concerns and the matter will be considered and the rider examined by the Medical Committee of the Motorcycling Ireland and if necessary by the International Medical Panel

However it is still desirable that an examination of the applicant be carried out by their own family doctor initially due, to previous knowledge of their past history

The purpose of the examination is to ensure that the rider is fit enough to have full and complete control of a motor cycle at racing speeds and thus not pose a danger to other competitors, officials or spectators. There will undoubtedly be occasions when the rider is fit to race but because of previous injury, surgery etc, further injury may result in much more serious damage or complications.

The responsibility of the doctor in these circumstances is to advise the competitor of this risk to him or herself and even advise against further competition but providing this is done and duly recorded and the rider is not a risk to others then he may race at his or her own risk.

The applicant must have sufficient use of his limbs to allow full control of his machine. He must therefore have effective use of both hands and functional loss (or anatomical loss) of a lower limb excludes a licence from being granted. Visual acuity for distance should be not less than 6/6 in two eyes with correction if necessary. Colour blindness is not permitted in certain events such as Trials these eyesight restrictions can be relaxed but the advice of the Medical Panel should be sought

Diabetes is permitted if certain criteria are met and again referral to the medical panel is advised. Ischaemic heart disease, rhythm disturbance, hypertension, cerebrovascular or other serious cardiovascular disorder are not normally permitted unless written evidence for a cardiologist or other relevant specialist is also submitted for consideration. Serious neurological or psychiatric disorder is not permitted. Epilepsy, history of a fit or fits, or unexplained loss of consciousness is not permitted.

Any alcohol or drug dependence problem will not be accepted. Indeed riders are routinely and randomly breathalysed for alcohol at events and are subject to doping control

Please remember at international level the competitors are subject to doping checks and Motorcycle Sport adheres to the international Olympic Committee Medical Commission List of Banned Substances. Caution is therefore required in prescribing medication for these competitors and it is recommended that advice be sought regarding any competitor at this level who is taking any medication prescribed or otherwise.

In applying for a licence the applicant will have signed a statement consenting to the Medical Officers of the sport obtaining any relevant medical information for any doctor or medical advisor who has been consulted by the competitor at any time and for any such person to divulge such information. The Medical Officers are also empowered by the terms of the licence to request a further examination or report at any time should this be felt necessary **Any fee in respect of the examination is payable by the Applicant**
